Executive Insights

- Sales Trend: Across 2021–2025, realized net sales generally fluctuate throughout the year but show a strong year-end surge, increasing sharply in November and reaching the highest level in December.
- Customer Segments: Consumer customers contribute the largest share of realized sales, accounting for over 50% of total realized sales.
- Country Performance: U.S.A is the dominant market contributing the largest share of overall realized sales.
- Order Returns: The return rate of orders has steadily increased from 7% to 8% over the period.
